

ROCK COGNITION PTY LTD

SOCIALLY RESPONSIBLE MINING CONSULTING FOR:

Since its formation in 2007 Rock Cognition has successfully completed a number of projects worldwide. The recognition of the company has been determined by its policy - HANDMADE MINING CONSULTING. We will tailor our services to your unique request and will adopt your requirements to come up with the best possible solution for you. Whether you are looking at developing a new mine, or are seeking to optimise your existing operations; whether you are striving to improve your equipment performance or trying to conquer new mining markets - we will find the information you need; will help you to make an informed decision and will assist you in implementation of your decision.

This is what just some of our clients are saying about us:

“Your level of dedication, ability to find the information we're looking for as well as your service mindedness is unprecedented.” Malin Ivarsson, Associate Consultant, Bain & Co, Sweden

“Our specialists are overwhelmed with the level of organisation of training and collection of information in Australia.” Yuri Bolgov, Deputy Chief Mining Specialist, Kazzinc LTD, Kazakhstan

“Positioning Brady's business for success in the Australian Mining market is a non-negotiable for our sales team to achieve its organic sales growth targets. Rock Cognition delivered a very condensed, structured and encouraging format enabling the Brady sales team to significantly reduce our knowledge gaps .” Jon Fleming, Sales Director for Brady Corporation Australia
